- ▶ Full test coverage based on the latest testing equipment for all products
- ▶ The complete package, from a single pin to a complete wiring harness

## Our expertise

Bosch Motorsport specialists have decades of experience in design and manufacture of customized wiring solutions for race cars and prototypes.

Increasing complexity in race cars necessitates a high degree of understanding in the electrical architecture of the project. We provide to you the extensive system know-how and the expertise of our specialists.

As a system supplier, we are familiar with the full spectrum of electronic requirements of the components in a racecar – from high current and high voltage applications to high-speed data networks.

## Our offer

Whether it is complete vehicle wiring, test equipment or a simple adapter – we design, plan, construct and test according to your individual requirements and requests.

If you want to build your wiring yourself, we also offer consulting and development support independently from our manufacturing services.
